Security Management–Smart-1 25 Appliance

OVERVIEW

Smart-1 appliances deliver Check Point's market leading security management software blades on a dedicated hardware platform specifically designed for mid-size and large enterprise security networks. Based on Check Point's software blade architecture, the Smart-1 appliances are first to deliver a unified management solution for network, IPS and endpoint security with unsurpassed extensibility.

The Check Point Smart-1 25 appliance offers advanced, turnkey security management for enterprises with 25 to 50 gateways. It has a capacity of up to 1 TB of integrated log storage.
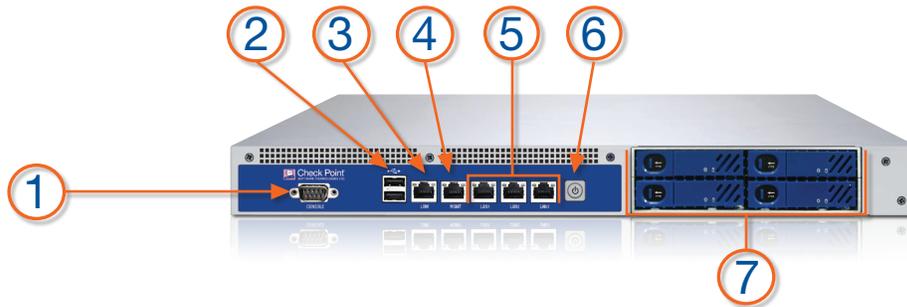

BASE CONFIGURATION
- 5 1GbE LAN ports
- Console port
- LOM port
- 2 USB ports
- 4 500GB hard disk drives in a RAID 10 configuration

BENEFITS
- Provides a comprehensive set of security management Software Blades in a turnkey security management appliance
- Maximize efficiency with a single unified management console for network and endpoint security
- Ensure operational continuity for the most demanding environments

TECHNICAL SPECIFICATIONS

LAN Support
- 1GbE – Copper

Hard Disk Configuration
- 4 500GB hard disk drives, RAID 10 configuration

Dimensions
- Standard: 17 x 21.7 x 1.75 in.
- Metric: 431 x 551 x 44mm
- Weight: 13kg (28.7 lbs)

Power Requirements
- AC Input Voltage: 100-240V
- Frequency: 50/60Hz
- Power Supply Maximum: 2 x 250W
- Power Consumption Maximum: 135.8W

Environment Operating Conditions
- Temperature: 32°-104°F / 0°- 40°C
- Humidity: 5%-95% (non-condensing)

Compliance
- CE, FCC Class A, RoHS
